**1 - Statutory Requirement: The policy shall contain a statement prohibiting harassment, intimidation or bullying of a student. N.J.S.A. 18A37-13 N.J.S.A. 18A:37-14(b) (1)**

The New Road Schools (Schools) prohibit acts of harassment, intimidation or bullying of a student. The Schools have determined that a safe and civil environment in school is necessary for students to learn and achieve high academic standards; harassment, intimidation or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe and disciplined environment. Since students learn by example, school administrator / designees, faculty, staff and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect and refusing to tolerate harassment, intimidation or bullying.

The New Road Schools' aim is to provide the best possible education for all students. Children have the right to receive their education free from intimidation, humiliation, threats, and harassment. The New Road Schools provide their students with the right to learn in a caring, supportive, and safe environment.

Our goal is to establish an environment where everyone feels valued and safe, and where individual differences are appreciated, understood, and accepted.

**Objectives:**

To raise awareness about bullying among students, staff, and parents

To assist students to resolve conflicts and differences

To create a school environment where everyone feels safe

To create an atmosphere for students to learn that it is okay to talk about bullying

To assist students in seeking guidance and/or help

**2 – Statutory Requirement: The policy shall contain a definition of harassment, intimidation or bullying no less inclusive than the requirements in N.J.S.A. 18A:37-14, N.J.S.A. 18A:37-15(b) (2) and N.J.S.A. 18A:37-15.3:**

Bullying, harassment, and intimidation are any acts of aggression with the intent to cause embarrassment, pain or discomfort to another student or staff member. It is the willful conscious desire to hurt, frighten, or threaten another person. Harmful teasing and bullying are examples of behaviors that hurt another's feeling. Students who choose to hurt another purposely violate the school's discipline policy and will receive a consequence for their poor choice of behavior.

Taken from Section 2 of P.L.2002, c.83 (N.J.S.A. C.18A:37-14 (2011)): Harassment, intimidation, or bullying includes any gesture, any written, verbal or physical act, or any electronic communication, whether it be a single incident or a series of incidents, that is reasonably perceived as being motivated either by any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability, or by any other distinguishing characteristic, that takes place on the school property or at any function sponsored by the school,

that substantially disrupts or interferes with the orderly operation of school or the rights of other students and that:

(a) a reasonable person should know, under the circumstances, will have the effect of physically or emotionally harming a student or damaging the student's property, or placing a student in reasonable fear of physical or emotional harm to his person or damage to his property;

(b) has the effect of insulting or demeaning any student or group of students; or

(c) creates a hostile educational environment for the student by interfering with a student's education or by severely or pervasively causing physical or emotional harm to the student.

The term "school grounds," pursuant to N.J.A.C. 6A:16-1.3, means and includes land, portions of land, structures, buildings, and vehicles, when used for the provision of academic or extracurricular programs sponsored by the Schools or community provider and structures that support these buildings, such as Schools' wastewater treatment facilities, generating facilities, and other central service facilities including, but not limited to, kitchens and maintenance shops. School property also includes other facilities as defined in N.J.A.C. 6A:26-1.2, playgrounds, and recreational places owned by local municipalities, private entities or other individuals during those times when the Schools have exclusive use of a portion of such land.

**3 - Statutory Requirement: The policy shall include a description of the type of behavior expected from each student. N.J.S.A. 18A:37-15 (2)**

The Schools expect students to conduct themselves in keeping with their levels of development, maturity and demonstrated capabilities, with a proper regard for the rights and welfare of other students and school staff, the educational purpose underlying all school activities and the care of school facilities and equipment, consistent with the code of student conduct. The Schools believe that standards for student behavior must be set cooperatively through interaction among the parents and other community representatives, school administrator / designees, school employees, school volunteers and students of the school, producing an atmosphere that encourages students to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well as for Schools and community property on the part of students, staff and community members.

Students are expected to behave in a way that creates a supportive learning environment. The Schools believe that the best discipline is self-imposed, and that it is the responsibility of staff to use instances of violations of the code of student conduct as opportunities for helping students learn to assume and accept responsibility for their behavior and the consequences of their behavior. Staff members who interact with students shall apply best practices designed to prevent student conduct problems and foster students' abilities to grow in self-discipline. The Schools expect that students will act in accordance with the student behavioral expectations described below:

**Student conduct expectations, disciplinary response, and reporting:**

At the New Road Schools we believe academic achievement stems from a positive attitude toward learning. Our teachers work with each child to help build the attitudes conducive to learning, confidence, motivation, and self-discipline.

New Road teachers use positive reinforcement as the primary tool for shaping student behavior. We frame everything positively and reward appropriate behavior with praise, a reward, and a level system that all students use to earn "privileges". We strive to promote positive student behaviors through the use of rewards, reinforcers, and a positive school culture. As well, a token economy and level system are in place to assist in the promotion of positive behaviors.

For students with frequently occurring behavior problems, we set up a behavior management program with specific target behaviors, interventions, and consequences, depending on the student's particular behavior and motivations. Our goal is to enable students to be responsible for their own actions and to recognize that there are behaviors that are acceptable and unacceptable. We encourage the student's classmates to "ignore" the targeted misbehavior. We use positive reinforcement to increase desired behavior in the student.

We work to discover the type of reinforcement that is most meaningful for each individual student. We begin with social reinforcement and combine this with a level system that enables students to earn privileges based on good behavior.

If the behavior problem continues to occur, the teacher will meet with colleagues who observe the behavior and collaboratively begin an intervention for the student. In every case, parents are involved in the behavior management program. The parent is informed of the plan, its goal and procedures. Where appropriate, the parent and staff may meet to discuss the plan's carryover into the home and to solicit input from the parent to design a plan.

When students fail to respond to the intervention approach to behavior change, the disciplinary process becomes necessary.

**Rights and Responsibilities:**

Every child has the right to enjoy their time in school. The New Road School shares the following rights and responsibilities with all students:

**Rights**

To feel safe at school

**Responsibilities**

to respect self

To learn  
To be respected

Social skills training  
Peer support relationships  
Active supervision (classroom, bathroom, hallways)

The Schools authorize the director / principal / designee of each school to define the range of ways in which school staff will respond once an incident of harassment, intimidation or bullying is confirmed, and the Executive Director/ designee shall respond to confirmed harassment, intimidation and bullying, according to the parameters described below and in this policy. The Schools recognize that some acts of harassment, intimidation or bullying may be isolated incidents requiring that the school officials respond appropriately to the individuals committing the acts. Other acts may be so serious or parts of a larger pattern of harassment, intimidation or bullying that they require a response either at the classroom, school building or Schools levels or by law enforcement officials. Consequences and appropriate remedial actions for a student who commits an act of harassment, intimidation or bullying may range from positive behavioral interventions up to and including suspension or expulsion, as permitted under N.J.S.A. 18A:37-1, Discipline of Pupils and as set forth in N.J.A.C. 6A:16-7.2, Short-term suspensions, N.J.A.C. 6A:16-7.3, Long-term Suspensions and N.J.A.C. 6A:16-7.5, Expulsions.

In considering whether a response beyond the individual is appropriate, school officials shall consider the nature and circumstances of the act, the degree of harm, the nature and severity of the behavior, past incidences or past or continuing patterns of behavior, and the context in which the alleged incident(s) occurred. Institutional (i.e., classroom, school building, Schools) responses can range from school and community surveys, to mailings, to focus groups, to adoption of research-based Harassment, Intimidation, and Bullying prevention program models, to training for certificated and non-certificated staff, to participation of parents and other community members and organizations, to small or large group presentations for fully addressing the actions and the school's response to the actions, in the context of the acceptable student and staff member behavior and the consequences of such actions, and to the involvement of law enforcement officers, including safe schools resource officers.

This policy and the code of student conduct shall apply to instances when a school employee is made aware of alleged harassment, intimidation or bullying occurring off school grounds when: The alleged harassment, intimidation or bullying has substantially disrupted or interfered with the orderly operation of the school or the rights of other students; and either

A reasonable person should know, under the circumstances, that the alleged behavior will have the effect of physically or emotionally harming a student or damaging the student's property, or placing a student in reasonable fear of physical or emotional harm to his person or damage to his property; or

The alleged behavior has the effect of insulting or demeaning any student or group of students; or

The alleged behavior creates a hostile educational environment for the student by interfering with a student's education or by severely or pervasively causing physical or emotional harm to the student.

Individual responses can include positive behavioral interventions (e.g., peer mentoring, short-term counseling, life skills groups) and punitive actions (e.g., detention, in-school or out-of-school suspension, expulsion, law enforcement report or other legal action).

Classroom responses can include class discussions about an incident of Harassment, Intimidation, and Bullying, role plays, research projects, observing and discussing audio-visual materials on these subjects and skill-building lessons in courtesy, tolerance, assertiveness and conflict management.

School responses can include theme days, learning station programs, parent programs and information disseminated to students and parents, such as fact sheets or newsletters explaining acceptable uses of electronic and wireless communication devices or strategies for fostering expected student behavior.

Schools-wide responses can include community involvement in policy review and development, professional development programs, adoption of curricula and school-wide programs, coordination with community-based organizations (e.g., mental health, health services, health facilities, law enforcement officials, faith-based organizations) and disseminating information on the core ethical values adopted by the Schools' code of student conduct, per N.J.A.C. 6A:16-7.1(a)2.

July 28, 2016

## **CYBER BULLYING POLICY**

### **Policy Statement**

A safe and civil environment in school is necessary for pupils to learn and achieve high academic standards. Cyber-bullying by a pupil from New Road Schools directed towards another New Road student or school staff member is conduct that disrupts both a pupil's ability to learn and the school's ability to educate its pupils in a safe environment.

The New Road Schools prohibits acts of cyber-bullying by its students through use of any school owned, operated and supervised technologies. This also includes the student's use of their personal phones, computers or other personal devices outside of school. The Principal/Director may report allegations of cyber bullying to law enforcement authorities.

### **Definitions**

**“Cyber Bullying”** is the use of electronic information and communication devices, to include but not limited to: e-mail messages, instant messaging, text messaging, cellular telephone communication, social media (i.e. Facebook) and defamatory websites, that:

1. Deliberately threatens, harasses, intimidates an individual or group of individuals; or
2. Places an individual in reasonable fear of harm to the individual or damage to the individuals' property; or
3. Has the effect of substantially disrupting the orderly operation of the school.

## **Reporting Procedure and Investigation**

Any Student or School staff member who believes he/she has or is being subjected to “cyber-bullying”, as well as any person who has reason to believe a student or school staff member has knowledge or reason to believe another student or school staff member is being subjected to or has been subjected to “cyber-bullying” shall immediately make a report to the Principal/Director.

The Principal/Director shall investigate all reports of such conduct. If the investigation results indicate “cyber-bullying” was not committed, the Principal/Director will inform the affected parties of the investigation results. In the event the investigation results indicate “cyber-bullying” was committed by a New Road School student on school grounds, or using New Road technologies, the student will be subjected to appropriate discipline.

In the event the investigation results indicate “cyber-bullying” was committed by a New Road student using non-school technologies away from school grounds, the Principal/Director may report the investigation results to local law enforcement. In addition, school authorities have the right to impose a consequence on a student for conduct away from school grounds, including on a school bus or at a school-sponsored function (off-campus jobs) pursuant to N.J.A.C. 18A:15-3. Students will also be held responsible if these types of activities are done while using their own personal devices (i.e. cell phone, computer, etc). This authority shall be exercised only when it is reasonably necessary for the student’s physical or emotional safety, security, and well-being or for reasons relating to the safety, security and well-being or for reasons relating to the safety, security, well-being of other students, staff, or school grounds, pursuant to N.J.D.A. 18A:25-2 and 18A:37-2. This authority shall be exercised only when the conduct, which is the subject of the proposed consequence, materially and substantially interferes with the requirements if appropriate discipline in the operation of the school.

## **Discipline and Consequences**

Some acts of “cyber-bullying” maybe isolated incidents requiring the New Road School to respond appropriately to the individual committing the acts. Other acts may be so serious or part of a larger pattern of “cyber-bullying” that require a response either at the classroom, school building, or by law enforcement officials.

Consequences and appropriate remedial actions for pupils who commit an act of “Cyber-bullying” range from positive behavioral interventions up to and including

suspension or expulsion, as permitted under N.J.S.A. 18A:37-2, Discipline of Pupils.

The New Road School prohibits reprisal or retaliation against any person who reports an act of “cyber-bullying”. The consequence and appropriate remedial action for a person who engages in reprisal or retaliation shall be determined by the Principal/Director after consideration of nature and circumstances of the act, in accordance with school policy and procedures.

### **Consequence for False Accusation**

Consequences and appropriate remedial action for a pupil found to have falsely accused another of an act of “cyber-bullying” range from positive behavioral interventions up to and including suspension or expulsion, as permitted under N.J.S.A. 18A:37-16.
